EDUCATION

Bharati Vidyapeeth's College of Engineering Pune, India
B.Tech in Computer Science Engineering — CGPA: 9.64/10 2023 – 2027
– Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Probability & Statistics

Seth Anandram Jaipuria School NCR, India
Class XII: 83.2% — Class X: 96.8% Graduated 2023

TECHNICAL SKILLS

Languages: Java, Python, C, SQL
ML & Data Science: Supervised Learning, Classification, Feature Engineering, Model Evaluation, NLP
Libraries/Frameworks: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, PyTorch
Tools & Platforms: Git, Microsoft Azure, FastAPI, Arduino, VS Code
Web Technologies: HTML, CSS
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

AI Azure Intern June 2025 – July 2025
Edunet Foundation (AICTE & Microsoft Initiative) Remote
– Developed AI-based solutions using **Microsoft Azure** cloud services to automate data workflows.
– Performed data preprocessing, feature engineering, and ML model training; achieved **high accuracy** on classification tasks.
– Evaluated model performance using accuracy, precision, recall, and F1-score metrics.
– Deployed and tested AI models using Azure cloud-based tools, gaining hands-on experience in production workflows.

Data Analytics Job Simulation April 2025
Deloitte Australia — Forage Remote
– Performed data cleaning, transformation, and exploratory data analysis on real-world business datasets.
– Generated actionable analytical insights to support data-driven business decision-making.
– Applied structured problem-solving to simulate a professional consulting engagement.

Creativity Head July 2025 – Present
CSE Student Association, BVCOE Pune, India
– Led event branding and design for **2 student events**, coordinating across teams for seamless execution.
– Managed end-to-end promotional campaigns; developed leadership and cross-functional project management skills.

PROJECTS

Parkinson's Disease Detection System | *Python, Scikit-learn, Pandas, NumPy, Seaborn* 2025
– Built and compared 3 ML classification models (Logistic Regression, SVM, Random Forest) on a biomedical voice dataset of 195 samples with 22 acoustic features.
– Applied StandardScaler for feature normalization and an 80/20 train-test split; **Random Forest achieved best accuracy of 92%**, outperforming Logistic Regression (90%) and SVM (87%).
– Evaluated models using precision, recall, and F1-score; visualized feature correlations via heatmaps and pair plots using Seaborn and Matplotlib.

Admission Assistance Chatbot | *Python, PyTorch, NLTK, FastAPI* | Smart India Hackathon (Internal) 2024
– Built an NLP-powered chatbot for the Dept. of Technical Education, Rajasthan, automating responses across **9 intent categories** (admissions, fees, courses, placements, and more).
– Designed a custom **3-layer feedforward neural network** (PyTorch) with Porter Stemmer tokenization and Bag-of-Words vectorization; applied a **75% confidence threshold** to ensure reliable responses.
– Deployed as a **REST API using FastAPI** with a responsive HTML/CSS/JS frontend; placed **2nd** in the internal Smart India Hackathon round competing against **75 teams**.

CERTIFICATIONS

NPTEL — Programming in Java (Elite)

NPTEL — Database Management System (Elite)

Microsoft — Fundamentals of Artificial Intelligence

CETPA — Masterclass on AI and Generative AI in Networking and Data Science (June 2025)

ACHIEVEMENTS & INTERESTS

Achievement: Diploma in Kathak Dance — 6 Years (Prayag Sangeet Samiti)

Interests: Problem Solving, Competitive Programming, Algorithms, Data Science
